Program Proposals

Proposals for creating new or changing existing programs, degrees, majors, minors or certificates must be reviewed and endorsed by the dean of the proposing college. Subsequent review bodies may include the Undergraduate Council, the Graduate Council, and the OUS Board. Approved proposals are ultimately returned to the University Committee on Courses for inclusion in one of three quarterly reports to the University Senate.

Current guidelines for the review and approval process, as well as links to the appropriate OUS proposal formats, may be found on the Academic Affairs website. http://academicaffairs.uoregon.edu/content/academic-programs-approval-process

Direct your questions regarding program changes to the Assistant Vice Provost for Academic Affairs, 541-346-3081.
